Letter of Recommendation

We would like to express our appreciation for the cooperation of our company with company "BSI OOO".

We started the cooperation with the company "BSI OOO) in January 2016 when it begun the process of modernization of Slurry Department which is part of Volsk Cement Plant modernization project called: "Volga Project".

The company was selected as main contractor for production and erection of steel structures, installation of equipment, erection of pipelines together with heat tracing and insulation.

We recommend the company "BSI OOO" as a professional and reliable for every company and appreciate its quality which currently differentiate in a favorable way to its competitors.

Best regards,

Sorin Chiriac
Project manager – Volga Project
